OUR NEWS

RECAP OF PLG 2024

A YEAR OF PROGRESS AND PARTNERSHIP AT PACIFIC LOGISTICS GROUP

As the year draws to a close, Pacific Logistics Group (PLG) reflects on a transformative 2024. This year has been a journey defined by progress, resilience, and the power of collaboration, all of which have propelled us to new heights in the logistics industry. Together with our dedicated team and valued partners, we have navigated challenges, expanded our capabilities, and strengthened our relationships within the logistics ecosystem. Through shared dedication and a collective commitment to excellence, we have laid a strong foundation for even greater achievements in the future.

This year, PLG focused on expanding our capabilities to better meet the evolving needs of our clients and the growing demands of the logistics industry. Our fleet was enhanced with new vehicles designed to cater to diverse cargo requirements, ensuring goods are transported safely and efficiently. Additionally, we introduced a refrigerated warehouse, capable of maintaining ultra-low temperatures, to support industries that rely on temperature-sensitive storage solutions. These milestones, achieved through the unwavering support of our team and partners, underscore PLG's dedication to staying ahead in a competitive industry.

Partnerships have played a pivotal role in shaping our success in 2024. By collaborating closely with clients and industry stakeholders, we have refined operations, developed tailored solutions, and built long-lasting relationships grounded in trust and shared growth. These collaborations have enabled us to deliver exceptional service and reinforce our reputation as a dependable logistics partner. Strategically located near Tuas Port, PLG has leveraged advanced digital tools to optimise supply chain operations, reducing turnaround times and enhancing the value we bring to our partners. Our team's adaptability and commitment have also been instrumental in driving our progress. Together, we've embraced challenges, fostered a culture of learning, and supported one another to meet and exceed industry standards. Through mentorship and shared expertise, we've empowered our workforce to thrive, ensuring PLG remains a trusted name in logistics.

Quality and compliance have been cornerstones of our operations this year. The successful renewal of critical certifications, including the Singapore Food Agency (SFA) license and the Regulated Air Cargo Agent (RACA) status, reflects our ongoing commitment to upholding the highest standards of safety, reliability, and service excellence. These achievements highlight the synergy between our internal teams and external stakeholders who have worked together to ensure consistent, top-tier service delivery.

Beyond operations, 2024 has been a year of meaningful connections. PLG has deepened its relationships with clients, partners, and the communities we serve. Initiatives such as sponsoring essential items for Chaoyang School's Children's Day and partnering with clients on National Day charity efforts exemplify our commitment to giving back and fostering a sense of shared purpose. These efforts reflect PLG's commitment to fostering meaningful partnerships and creating a positive legacy that extends beyond our business. We have made this year a remarkable chapter in PLG's story, and we look forward to shaping a thriving future together.

OUR NEWS

RENEWAL OF ISO CERTIFICATES

We are excited to share that our ISO certification has been renewed for the following:

- ISO 45001:2018 - Occupational Health & Safety Management System
- ISO 14001: 2015 - Environmental Management System
- ISO 9001: 2015 - Quality Management System
- ISO 22000:2018 - Provision of Storage & Transport Services for Ambient Stable Food

This renewal symbolises our commitment in upholding the highest service standards, ensuring that we consistently meet and exceed your expectations. To obtain the certifications, we had to undergo a rigorous and comprehensive audit of our entire company, including our processes, procedures and documentation. This external validation reaffirms that our operations align with internationally recognised best practices.

By successfully completing this audit and renewing our certification, we demonstrate our unwavering dedication to excellence and continuous improvement, providing you with the best possible service - and this certification renewal is a testament to that promise.

OUR NEW WAREHOUSE IN PORT KLANG

In the face of evolving global supply chain dynamics, organisations are strategically diversifying their operations to mitigate risks associated with dependence on single locations and to optimise cost efficiencies. This diversification trend is driven by a growing client demand for solutions that maintain regional hubs in key locations like Singapore while exploring more cost-effective options in surrounding areas. In response to this demand, our team has conducted in-depth research into warehouse opportunities in Malaysia to identify potential alternatives that can support our clients' regional operations while achieving cost savings.

As such, a new addition to our Malaysia operations is a strategically located warehouse in the Free Trade Area of Port Klang. This new facility will allow us to help our customers optimise their supply chain and distribution network, providing significant advantages in terms of customs clearance, tax benefits and streamlined logistics. Ultimately, this expansion will enable us to better serve our customers in Malaysia and the surrounding regions, reducing lead times and improving overall operational efficiency.

With the establishment of our new facility in Port Klang and the potential opportunities arising from the upcoming Singapore-Johor Special Economic Zone, we are well-positioned to support our clients' growth and transformation in this dynamic region. As we continue to monitor market developments, our focus remains on delivering strategic solutions that enhance supply chain resilience, reduce costs and improve operational efficiency. Together, we look forward to navigating these opportunities and driving success across regional operations.

OUR SERVICES

13 TUAS WAREHOUSE

Exciting news for our valued clients: Space has just opened up at our 13 Tuas warehouse. Below are the details for your consideration. Seize this opportunity to expand or streamline your storage needs with us!

CELEBRATING NICOLE AND SHERYL'S MENTORSHIP CERTIFICATION

Big congratulations to Nicole and Sheryl from our Project Department for achieving their certification in mentoring!

At PLC, we believe that great mentorship is the foundation for growth, collaboration and innovation. This milestone reflects the dedication we place on fostering strong leaders who inspire, guide and empower others, while building a supportive environment to help our people reach their full potential.

Christmas Celebration

As the festive season approaches, we extend our warmest wishes to all our valued business partners and clients. May this Christmas bring joy, success, and cherished moments with your loved ones.

This year, we are proud to share the success of our annual Christmas Food Drive, made possible through the incredible generosity of our dedicated employees. Their contributions have had a meaningful impact on those in need, and we are inspired to extend this spirit of giving.

We encourage you to consider joining us in future initiatives or exploring ways to make a difference in your own communities. Together, we can spread kindness and bring hope to those who need it most.

Thank you for your continued partnership, and may this holiday season be as rewarding and joyful as ever.

Happy Holidays!
